

# Money Terms

Cents is the unit we use to make up a whole dollar. 100 cents equals a dollar.

Cents are written as a fraction of a dollar in decimals.

**\$1.00 = one whole dollar = 100¢**

The decimal point is placed after the whole dollar amount and before the cents.

5 whole dollars   45 cents of one whole dollar

**\$5.45**

decimal point

- |                                   |                |                                    |                |
|-----------------------------------|----------------|------------------------------------|----------------|
| 1. Four dollars, twenty cents     | <u>\$4.20</u>  | 2. Sixty dollars, twenty cents     | <u>\$60.20</u> |
| 3. Five dollars, fifty-two cents  | <u>\$5.52</u>  | 4. Ten dollars, sixty-five cents   | <u>\$10.65</u> |
